

DENVER SKIN DOCTORS

Photofacial pricing and information

1. Full face photofacial

-First single treatment \$500

-Follow-up full face treatments **within the first six months** of first treatment \$400

-Series of three (3) treatments \$1200

-The series must be paid in advance and completed within six (6) months

-Treatments are typically scheduled 4-8 weeks apart.

-We recommend purchasing a package of three as the photofacial removes a “layer” of damage with each treatment. You will see the most crusting and improvement following the first treatment and the following treatments are aimed at resistant brown spots and vessels. **Most patients need more than one treatment to achieve satisfactory results.**

2. Single area photofacial (i.e. forehead OR nose OR cheeks OR hands ONLY) \$350 each treatment

3. Single spot photofacial (one brown spot or broken blood vessel) \$200 each treatment

-You will see improvement after each treatment but it often takes more than one treatment to resolve brown spots and broken blood vessels. There are **no guarantees** that a problem spot will resolve and you will be charged as above for each treatment

- We schedule a significant block of time for laser procedures and ask that patients respect our time by giving appropriate notice prior to cancelling an appointment. Payment is required in full prior to securing your appointment slot and will NOT be refunded/rescheduled if given less than 2 business days notice of cancellation.

By signing below, you acknowledge you have read and agree to the laser pricing and scheduling policies detailed in this form.
